GOOD PRICE

Realized on Some Leaf on Loose Floor.

Hogshead Receipts and Sales Again Large, and Shipments Are Now Heavy.

Our hoghead receipts and sales this week were again heavy. The market calls for no special comment, being generally steady and unchanged at last week's quotations. While receipts are large, shipments are also heavy and there is but little accumulation of stock.

R. M. Wooldridge & Co. sold about 200,000 pounds on the loose floor. The great bulk of the weed offered here at this time is of the commoner varieties, some which is damaged. Prices consequently appear low. Tobacco, however, that has been carefully handled and is in good order always commands full price on the Hopkinsville market. R. M. Wooldridge & Co. sold some leaf at \$7.80. Quotations on the loose market are as follows: Trash, \$2 to \$2.50; lugs, \$2.50 to \$3.25; leaf, \$3.50 to \$7.80. The loose sales will be continued by Wooldridge & Co. as long as the farmers bring in the weed.

DR. CAMPBELL WEDS

And Mr. Phil Gaither to Marry Next Tuesday.

Dr. Geo. N. Campbell, formerly of this place, and Miss Phoebe Lewis, of Philadelphia, were married in the latter city Wednesday. After spending the honeymoon on the Atlantic coast they will return to Philadelphia, where they will make their future home.

Gaither-Steels.

Mr. Phil Gaither, formerly of Hopkinsville, but now of Fort Worth, Texas, and Miss Ora Steele of Ft. Worth, will be married next Tuesday. The bride-to-be was originally from Livingston county, Ky., but made her home in Paducah about two years prior to going to Texas.

CONSUMPTIVE PATIENT

Dies at the Asylum After Long Illness.

Miss Sallie E. Perry, an asylum patient from Simpson county, died at the institution Tuesday, of consumption. She was 40 years old and had been in the asylum several years. The body was shipped to Franklin for interment Wednesday.

Lobby Made Smaller.

Postmaster Breathitt has had some changes made in the postoffice. Two sections of lock-boxes, in disuse since free delivery was established, have been taken out and the rear partition moved forward about ten feet. It adds considerably more room to the working department inside and leaves the lobby large enough. The Government has renewed the lease for another term of five years, for the building, which is owned by the John Moayon Company.

Wheat Again Suffers.

Two hard rains Tuesday and Wednesday have put a stop to wheat threshing for several days to come. Many of the large crops were threshed the first of the week, but the small crops that have to wait on the threshers will be fortunate if they are saved without being seriously damaged.

MENSEN-DONNELL.

Mr. John G. Mense and Miss Tezlie Donnell, both of the Macedonia country, were united in marriage Tuesday.

Real enjoyment is had when reading that clever magazine, The Smart Set.

STRIKE SETTLED.

Details to be Arranged by Board of Arbitration.

The 74,000 Men Who Went Out Are To Get Their Old Places.

Chicago, July 21.—The strike inaugurated ten days ago by the Butchers' and Meatcutters' Union was amicably settled at a conference in Chicago last night, brought about by request of officials of the Allied Trades. The whole difficulty will be submitted to a board of arbitration, and pending the award the strikers are to be given their old positions as rapidly as possible, every man to be reinstated within forty-five days. Strike leaders in all affected cities have been notified and normal conditions are expected to-morrow morning.

Results of the Strike.

Total men made idle in all cities, 74,000.

Average wages of all idle men, \$3.50 per day.

Total losses in wages per day, \$259,000.

Total losses in wages for seven, working days, \$1,813,000.

Loss to packers in business and through destruction of meats and by-products (estimated), \$7,000,000.

Loss to railroads in reduced traffic, \$500,000.

Loss to the public, an average of five cents per pound in the price of meat, which will probably continue in force for several months.

VERY CLOSE CALL.

Invalid Wife Rescued From a Burning By Her Husband.

The large frame dwelling house of Mr. Bayless E. Parker, near Mansington, was totally consumed by fire, together with its entire contents, on the morning of the 14th instant. The fire originated from a fuse. Mr. and Mrs. Parker were the only occupants of the building. The latter has been an invalid for about two years and it was with great difficulty that Mr. Parker succeeded in getting his wife out of the house before the mass of flames collapsed. One of the rooms contained a year's supply of flour, meat and lard. The loss is about \$1,500. There was no insurance.

SALARY SCHEDULE

For Rural Mail Carriers Has Been Completed.

The new salary schedule for rural mail carriers has been completed. The new schedule applies from July 1. The last Congress raised the maximum salary from \$600 to \$720 a year. It was found that the maximum route was 24 miles long, and to carriers on routes of this length, numbering about 12,000, the maximum salary will be paid. The salaries of carriers on routes shorter than the maximum was fixed by deducting \$18 for each mile less than 24. The net result has been slightly over two-thirds of the whole force of 24,500 rural carriers have received increases of \$100 a year in their salaries. The remaining carriers have received less than this amount.

CHOLERA INFANTUM

Causes Death of Two Children in North Christian.

The six-months-old child of John Wilson, who lives on Trade Water, died last Friday of cholera infantum. A child of George Cost, of near Crofton, died Saturday night of the same disease.

Died in St. Louis.

John Nurse, col., who moved from this place to St. Louis about 2 years ago, died in that city Monday. The body was brought here and interred Tuesday.

LOST A LIMB.

Serious Accident to Young Man of This City.

Walter Maddox, of this city, was the victim of a serious accident at Springfield, Tenn., Wednesday. Young Maddox was a brakeman on the L. & N., local, between Hopkinsville and Nashville, and fell under the cars, one leg being crushed so badly that amputation was necessary.

He had been employed here in a tobacco factory until the first of the week, when he secured employment as brakeman. He made his first trip to Nashville Tuesday and was on the return trip when the accident occurred.

A CORRECTION.

An error was made in noting the death of Mr. Grey Lewis in Tuesday's paper. Mrs. C. B. Alexander was not Mr. Lewis' mother, but his aunt, with whom he lived much of the time during his childhood. She was a sister of his father.

ONE KILLED

And Two Others Badly Shocked By Lightning.

The Result of An Electrical Storm Which Passed Over Country East of Pembroke.

During the rain storm Tuesday afternoon Eulus Minor, a young farmer who lived three miles east of Pembroke, was killed by lightning. Mr. Minor and his elder brother took refuge under a tree which was struck by lightning. The current passed down a grape vine, killing young Minor instantly. The brother was considerably shocked, but not seriously hurt. The Minor family moved to Christian county some years ago from Tennessee. Eulus Minor was about 24 years old, unmarried, and was the main support of a widowed mother.

During the same storm the wife of Ed Bell, col., of near Bell's Chapel, was badly shocked by lightning, but it is thought that she will recover.

W. S. WILSON

Dies in This City. After a Brief Illness.

Mr. William Ship Wilson, stepson of the late Dr. W. H. Hopson, died Wednesday morning at the Hopson residence, after an illness of several days. He was 50 years old and was for a number of years engaged in the tobacco business at various points. Funeral services were held at Grace Episcopalian church yesterday afternoon and the interment took place in Hopewell Cemetery.

ONLY TWO FAILED.

Out of Fourteen Applicants a Dozen Were Successful.

The papers in the examination of white teachers for certificates, held last Friday and Saturday, have been graded. There were fourteen applicants and all but two passed.

One first-class certificate was issued, seven second-class and four third-class. The examination of colored applicants will be held today and tomorrow.

Embry Allen Injured.

Cynthiana, Ky., July 20.—State Senator J. Embry Allen, of the Second Kentucky regiment of Lexington, Ky., while camping with Cynthiana friends at Blue Lick Springs, was severely injured by a fall while stepping into a skiff on Licking river. Three ribs were broken and he sustained other injuries.

Judge Parker is getting along
swimmingly in his race so far.

If the Hayes decision holds good,
it will bring to the schools of
Christian county a per capita of
about 75 or 80 cents.

Senator Gorman will decline the
Chairmanship of the Democratic
National Committee and Taggart is
still the most probable selection.

The first issue of Marion's new
paper, the Record, published by
James E. Chettenden, appeared last
week. It is Republican in politics.

Senator Gorman has declined the
Chairmanship of the National Com-
mittee. The election will be made
next Tuesday.

for the appointment of Mr. Yewell

The tearful "kissing bug," which
is usually found about lawn swings
and settees, has reappeared at
Owensboro, and one man has al-
ready been poisoned. The Owens-
boro Inquirer, whose editor writes
like a scientific student of oscula-
tion and its dangers, thus describes
the new pest:

The so-called kissing bug, which
is more properly called the harvest
beetle. It is a black beetle about
three-fourths of an inch long, with
slightly fluted wing covers, which
shine like brocaded satin. The
color underneath varies from a very
bright yellow to a light brown.
The bug does not bite, but on being
touched or even disturbed it exudes
a small drop of an oily, peculiar
and ill smelling liquid from its
mouth. As a little girl said who
had been attacked by one of them,
"it tastes like fire, only hotter."

The bugs are very much worse
some years than others. Five or
six years ago they overspread the
country and a number of deaths
followed their attacks, the irrita-
tion resulting in blood poisoning.
Nothing has been heard from them
for about three years, but they are
coming to the front again."

Deafness Cannot be Cured

By local applications, as they
can reach the diseased portion
of the ear. There is only one way
to cure deafness, and that is by
constitutional remedies. Deafness
is caused by an inflamed condition
of the mucous lining of the Eustachian
Tube. When this tube is in-
flamed you get a rattling sound
or a crackling sound, and when it
is entirely closed Deafness is the
result, and unless the inflammation
can be taken out and this tube re-
stored to its normal condition
hearing will be destroyed forever;

nine cases out of ten are caused by
Gout, which is nothing but an
inflamed condition of the mucous
surfaces.

We will give One Hundred Dollars
for any case of Deafness (caused
by catarrh) that cannot be cured
by Halls Catarrh Cure. Send for
circulars, free.

The School Book Commission of
Tennessee has adopted a list of
books for the next five years.
Westworth's Arithmetic and Geom-
etry, Hyde's Language Lessons,
Lee's History of the U. S., and
Worcester's Dictionaries are among
the books adopted. Lee's Readers,
Tarr & McMurray's geographies
and Hunt's spellers are some of the
new books put in. The prices
range higher than the Kentucky
schedule on most items. None of
the Kentucky books are used in
Tennessee.

Judge Parker went on record
seven years ago against trusts by a
decision in a test case.

"The law assumes," he said, that
any attempt by a combination of
persons who get together to fix
prices so that the community is
made to pay more than they other-
wise would pay, is detrimental to
trade and to the public interests."

The seizure of British ships in
the Red Sea, by Russian warships,
to search for Japanese mail, is
causing the English lion to growl.
It is believed serious complications
have arisen, that can only be
straightened out by the most delicate
diplomatic work. If England will
get into the game, France will
probably stay out.

The grand lodge of Elks at Cle-

charges of extravagance were
made against the retiring grand
officers. The parade was the
greatest in the history of the order.

The architect, who is to build the
State capital, first decided that the
original plan of incorporating the
present new wing in the new capital
would not be practicable. Now
he says the present grounds are too
small and a new site should be
purchased. Wouldn't it be cheaper
to employ a new architect?

HAYS CONSTRUES

School Law in Way to Get
\$500,000 More Money.

Most Important Decision Affecting
State Revenues by At-
torney General,

Frankfort, Ky., July 19.—On a
motion from Superintendent of
Public Instruction Fuqua, Attorney
General Hays today rendered an
official opinion constraining sub-
sections 5 and 6 of Section 4,370,
Kentucky Statutes, in which he
holds that the common school sys-
tem is entitled to .539% of the whole
State tax, and that the common
school fund is entitled to have its
proportion of the funds derived from
the insurance department set aside
to this department.

He holds that for the year end-
ing June, 1904, there should have
been placed to the credit of the
school fund \$95,000, this being its
proportionate part of the \$215,000
turned into the treasury from this
source. He estimates that between
\$110,000 and \$115,000 will be due
this fund from the money turned into
the Treasury June, 1904.

He further holds that the school
fund is entitled to the proportionate
part of the funds turned into the
Treasury since 1898, which will amount
to about \$50,000.

Heretofore the funds from the
insurance department have been cov-
ered into the Treasury and none of
them devoted to the school fund.

FORCED TO SPEAK RUDELY.

Young man Netted Beyond En-
durance by Girl's Criticism.

There is a young man in town
who is newly come out of the West,
and if you ask a certain Rhode
Island-avenue girl about him you
will be very likely to hear a most
disparaging account of his manners.
It happened this way: Last
summer the Rhode Island-avenue
girl went out to the Western town
where this young man was born
and brought up to visit friends.
Everybody was exceedingly cordial to
her, and possibly this gave her an
adequate idea of her own impo-

tness. At any rate, she took it upon herself
to criticise the west and Western-
ways is a fashion that is far
from pleasant to Westerners, though
goodness knows, they've heard it
long enough to be pretty well
hardened. The young man I am
telling you about took her driving
one evening, and it happened that
she was in an unusually critical
mood. She made fun of the town
and people and pointed out where
they were lacking in the essentials
of civilization till the young man
felt that her remarks were
getting on his nerve.

"Things are so different here
from what they are in Washington,"
she said. "Wh—, at home really nice girls never go driving
in the evening with men."

The young man's patience snap-
ped off short. He looked at the
girl with a smile.

"It's the same here," he said
coolly. "That's why we fellows
have to take girls from out of town."

FIRST COMPLICATION.

Believed to Have Arrived Between
Russia and England.

Berlin, July 19.—England has in-
formed Germany of the dispatch of
an English fleet of eighteen war-
ships to Alexandria with the intention
of checking Russian illegalities
in the Red Sea. It is expected that
the demonstration will cause
Russia to subscribe merrily.

The general feeling here is that
the first European complication
with regard to the war in the far
East has arrived.

Sound Advice on Mining Investments.

The Consolidated Alpine.

A pamphlet issued by Walter S. Logan, an experienced investing attorney, on "The Art of Investing," is a work that should be in the hands of every man, whether he is investing for income or speculation.

We have taken the liberty of quoting the most salient points in the little book.

Mr. Logan says: "There are two classes of investments: First, the investment made to secure a safe and assured income without either risking or seeking to increase the principal. Second, the investment whose primary object is to increase the principal and as to which the securing of present income is a secondary—or at least not the controlling—consideration."

Interest rates are steadily declining. When I first commenced practicing law in New York City a bond was often paid by the borrower on a well-secured seven per cent. mortgage. Now a premium is paid by the lender on a four per cent. mortgage with no better security. My office is collecting for clients coupons on railroad bonds issued twenty-five and thirty years ago, and carrying six and seven per cent. interest. Now, as the old bonds are paid off, we are glad to

pay on interest money is certainly not encouraging.

"Mortgages can be had in limited quantities which will insure four per cent., with good security, for not to exceed five years. Bonds yielding three per cent. for twenty years are to be had, but it would be difficult to find to-day a fifty-year investment in the nature of a loan with an adequate margin of security against future contingencies which would yield more than two per cent.

"If a four per cent. five year mortgage, or a three per cent. twenty year bond is taken, it is doubtful if the five-year investment can, when it becomes due, be re-invested to yield three per cent., or the twenty-year investment to yield more than one and one half per cent."

"There are three reasons for this evolution in interest rates that is going on:

"1. The aggregation of accumulated capital is constantly increasing all the world and the people in it get richer. There is more money to lend and competition pulls down the price.

"2. There are more people seeking to live without self supporting labor on the income of invested capital—more who wish to confine their

lives on interest money is certainly not encouraging.

Mr. Howard Brame has bought the livery stable heretofore owned by Golay & Brane, at the corner of Seventh and Virginia streets. His brother, Lem Brane, the late part owner, will remain in the management of the stable until November, when Mr. Brane will himself move to the city from his home in the country. The new proprietor is a stirring and energetic young man, popular and enterprising and is widely acquainted over the county. He has an ad. in today's Kentucky and it goes without the saying that he will do a big share of the feed, livery and hack service, to which branches he will confine his business.

His Leg Broken.

Edwville, Ky., July 20.—The Hon. W. W. Tabb, Hardin county's representative in the Legislature, who has been acting in the capacity of foreman for Joseph McWilliams & Co., of Louisville, in the construction of the new cellhouse at the branch penitentiary, broke his leg in two places today while measuring a ditch for a drainage pipe line. The earth caved in, lodging some heavy stones against him.

Mr. Maybrick's Release.

After fifteen years imprisonment, convicted of killing her husband by arsenical poison, Mrs. Florence Maybrick, a member of a prominent Southern family, has been released from British custody, and is now journeying to Rouen, France, where she will reside. The last months of her servitude were spent in the convent of the sisterhood of Epiphany, at Truro, Cornwall, England.

Two-Headed Girl Baby.

Cairo, Ill., July 21.—A two-headed girl baby has been born in Cairo to a negro woman named Shana. It died shortly after birth. The heads were well formed and rested on the shoulders at about the same angle. The features were perfect. The body was fully matured. The child had only one set of lungs, but it possessed two independent necks each windpipe furnishing air for one lung.

"THE ETERNAL FEMININE."

In Whatever Business She May Launch Sex peculiarities cling ever to her.

"Woman may enter the professions, but in most cases her profession will stick through some where," remarked a lawyer to a fellow member of the profession over the cigars at an uptown club the other night, related the New York Tribune. "The oddity of a woman practicing law never struck me so forcibly as the other day, when I had a little business with one. This particular woman lawyer was not one of the kind who are masculine and cold. Somehow she seemed out of place in her little office, surrounded by stacks of papers and file cases. You felt that she should have been the mistress of a sunny home with plenty of fresh air about it and children romping in the yard. But this was the incident which emphasized the oddity I mentioned. She arose to leave her office to attend to some legal business downtown. Naturally, I assisted her with her coat. Then she turned to her office clerk, a young woman, and said: 'Is the chiffon blouse at the back of my neck all right? I must have another one soon.' Then she went out full of the business on which she was best."

re-invest the money in good three per cent. bonds. Five per cent. government, state and municipal bonds could, at the period I am speaking of, often be bought at a discount. Now three per cent. municipal bonds and two per cent. United States bonds command a premium.

"The lowering of the interest rate is still going rapidly on. At times there is a tight money squeeze and rates go up, but taking it year by year, the rate is steadily going down. In ten years from now the prevailing rate for good securities is quite as likely to be below as above two per cent. and Governments may come to sell on a basis as low as one per cent."

GUTHRIE FAIR THIS WEEK

Opens Under Favorable Auspices and Great Show Given.

The Guthrie fair opened Tuesday under favorable auspices. The attendance has been large and increasing from day to day. The races are well filled and the special attractions put one in mind of Barnum's circus. The show is certainly great and the promises of the management are being fulfilled. Those who fail to attend will miss the best show ever given in this section of the state. Kemp's Wild West, The Five Flying Baldwin's and twenty other interesting acts are given daily. The night show is also attracting large crowds.

HIT BY SMOKER.

Carrie Nation Said to Have Been Knocked Down at Guthrie.

Clarksville, Tenn., July 20.—Carrie Nation, who is attending the annual fair now in progress at Guthrie, Ky., has been up to her old tricks. Yesterday afternoon in the grand stand on the fair grounds she walked up to a young man named John Williams, from Trenton, Ky., and slapped a cigarette from his mouth. He warned her not to repeat the act, but she did not heed the warning, again knocking the cigarette from Williams' mouth, whereupon he is said to have knocked her down. Mrs. Nation was not hurt.

Between Cairo and Paducah for First Place.

Hopkinsville Has Lost Heavily In All Recent Games.

	P.	W.	L.	Pc.
Cairo	68	44	24	647
Paducah	65	42	23	646
Clarksville	67	34	33	507
Hopkinsville	69	29	40	420
Vincennes	66	26	40	393
Henderson	69	27	42	391

The above table shows the standing of K. I. T. clubs up to yesterday morning. Paducah is hot after first place again, while the contest for the tail end is almost as fierce between Vincennes and Henderson.

Wednesday Henderson and Cairo drew even on a double header at Cairo. Cairo lost the first game by 4 to 2 and won the second by 4 to 3. At Paducah, Paducah beat Vincennes 6 to 2.

Hopkinsville and Clarksville began a series of three games here Tuesday and the first two were easy victories for the visitors.

They came in from Cairo at 4 p.m. and it was 5:10 before the game was called. The locals were at the park at 3:45 and ready to play, but umpire Popp did not appear until the visitors arrived. The weather was threatening, but at 3:45 it was not raining, though there was a hard shower about 4 o'clock.

The locals claimed a forfeited game, but Clarksville reported that Farmer Baker had promised to wire the time they would arrive. Their man Doll had a fight with Shuster, the umpire, at Cairo, and it took some time to get him out of the court complications.

The game began after Hopkinsville had entered a formal protest and was a listless affair all through, the visitors making score after score until the game closed 9 to 2. But few people were present. Morris and Collins for Hopkinsville and Doll and Pettit for Clarksville, were the batters.

The game Wednesday was played under favorable auspices, with the weather all right and a big crowd on hand.

In the first inning Clarksville put two grounders through the center field and a series of errors enabled the visitors to get 4 scores in about four minutes. After that a fair game was played for several innings, but Hopkinsville made only one score, while Clarksville made another "killing" of three scores in the seventh inning. The locals barely escaped a shutout, the score being 7 to 1. Ferrell pitched and Collins was behind the bat until disabled, when Moore relieved him, Morris going to first base and Peipho replacing Moore at short stop. Harris and Pettit made up Clarksville's battery.

The game yesterday was the last of the series here, the locals going to Clarksville to play to day and tomorrow. They will return next week for three games with Vincennes beginning Tuesday and three with Henderson beginning Friday.

On the Fly.

Shuster is still umpiring at Cairo.

The grass in the outfield again needs mowing.

Vincennes is after the Browns. Hopkinsville's fight now is to hold fourth place.

One of the largest crowds of the season was on hand Wednesday, but it did not encourage the boys to win.

The Clarksville team did not get in Tuesday until nearly five o'clock, but they gave the locals one of the worst defeats of the season.

Six errors for Hopkinsville Wednesday and 1 for Clarksville Wednesday, tells how the locals failed to please the fans. Hits were 9 to 10.

Hon. William Jennings Bryan attended the game at Vincennes Monday. Mr. Bryan addressed the spectators and the home team was so encouraged by his eloquence that it won the game.

Hopkinsville had two men hurt in Wednesday's game. Collins knocked off a finger nail in the sixth inning and Moore relieved him as catcher. Brady hurt a finger in the seventh, but played out

the game. Morris and Peipho are still lame from injuries and Marre has two sore fingers, one on each hand. The boys are not in physical condition to play first class ball.

About 100 Clarksville fans blew in at noon yesterday, on a T. C. special armed with megaphones, to root for the Clarksville team.

Umpire Popp is a great improvement over Shuster. His decisions here have been seemingly fair and impartial. But the Clarksville team as long as they are winning are not called upon to do much kicking. If the locals pull themselves together and begin to play ball again, like they are capable of doing, we can see how gracefully the Clarksville swellsheads can accept defeat.

CAMPAIGN ISSUES.

Democratic Political Text Book Will Be Turned Over to National Committee.

Washington, July 19.—Imperialism, the tariff and the trusts are the subjects most exhaustively treated in the Democratic campaign book, which Chairman Crowder, of the Democratic National Committee, has just completed, and the manuscript of which will be turned over to the Democratic National Committee as soon as that body organizes July 26.

The contents of the book are as yet scarcely guarded, because certain chapters are lacking, notably the speeches and letters of acceptance of Judge Parker and Senator Davis. When these have been provided, the National Committee will look after the printing of the volume which is to serve as a text-book to active Democratic partisans.

The most striking feature of the text-book is the evident purpose to make the personality of President Roosevelt one of the issues of the coming campaign. Speeches by Congressman Kitchin and others, attacking the chief executive, are given important positions in the book.

It is said that the currency question is entirely ignored, but it is likely that the party managers will insist on some formal recognition of Judge Parker's position in the matter.

RUSSIAN LOSS 2,000.

Czar's Troops Suffer Heavily In Fighting at Motien Pass.

Gen. Kuroki's Headquarters, via Fusen, July 18.—More Russian troops were engaged in yesterday's battle at Motien Pass than in any previous engagement. There were probably double the number of those which took part in the fight at the Yalu river, while, opposed to them were only one brigade and one battalion of the Japanese forces. The Russian loss is estimated at 2,000. The burial of the dead continues. The Japanese casualties aggregated 300.

The engagement has conspicuously demonstrated the wonderful efficiency of the Japanese infantry. They proved incomparably the better marksmen, with more initiative, and they fought out and outgeneraled the Russians on every point.

DISBARRED.

Lexington Lawyer Cannot Practice Before Fayette Courts.

Lexington, Ky., July 19.—The disbarment proceedings against Attorney S. M. Tudor were begun before Judge Parker in the Circuit Court yesterday morning and lasted through the entire day. Mr. Tudor was charged with malpractice as an attorney at the Fayette bar, and was accused of accepting a fee from both sides of a case which was recently tried in a magistrate's court.

After hearing all the evidence on both sides of the case Judge Parker handed down a decision disbarring Tudor from further practice in the courts of the Commonwealth.

The Blind May See.

Dr. D. Garfunkle's Eye Remedy cured hundreds of persons who were nearly blind with sore eyes, granulated eyes, redness, tickling, burning, inflamed eyes, and wild hair.

Many had scabs or pustules on their eyes; could not see their way; were given up by doctors as hopeless cases, costing nothing but dollars.

Cataract, white of eyes, and you may be convinced that it is incurable.

How severe your case is, or how long standing, address Dr. D. Garfunkle, 609 North Summer Street, Nashville, Tennessee.

TRAGIC DEATH

Of Another Prominent Official of Louisville Wednesday.

Circuit Judge Upton W. Muir Drowned While Surf Bathing In the Ocean.

Cape May, N. J., July 20.—Judge Upton W. Muir, of Louisville, was drowned here today at noon, while surf bathing, in water only knee deep. His body was recovered floating face downward when found.

Judge Muir was born in Louisville December 20, 1863. He was an active youth and attended Prof. Chenault's school until going to the University of Virginia, where he graduated from the College of Liberal Arts in 1887. In 1888 he was given the degree of Bachelor of Law, and came to Louisville at once to engage in the practice of law with his distinguished father, Judge P. B. Muir, the firm being P. B. & Upton Muir.

The firm continued in existence until the spring of 1902, when the son was appointed by Gov. Beckham to fill one of the two judgeships of the Circuit Court, created by an act of Legislature. He was elected to fill the short term at the November election in 1902, and in November 1903, was elected for a term of six years.

Mrs. Muir, who, with her two children, Peter B. and Elizabeth, accompanied Judge Muir to Cape May, was Miss Hebe Harrison, a noted beauty of Charlotteville, Va.

Their friendship began during Judge Muir's college days and their marriage followed soon after his graduation.

According to Judge Muir will be appointed by Gov. Beckham, but a court is not now in session, it is probable that the appointment will not be made until early in September.

Bryan and Parker to Speak From the Same Platform.

Chicago, July 19.—"It is true that we are to have a meeting in Chicago on August 20," said Mayor Harison today after reading the Associated Press dispatch from Eosopus relative to the opening of the Democratic campaign. "We intend to invite Judge Parker to be one of the speakers. The celebration was originally set for last Saturday, July 16, but we changed the date when we found it would occur before Mr. Parker and Mr. Davis had received their official notifications. We have already invited Mr. Bryan, ex-Senator Town and Champ Clark. They practical have accepted and we are counting upon Judge Parker."

EXCITING DAY.

Two Casualties Occur at Guthrie Fair Tuesday.

Guthrie, Ky., June 20.—Yesterday was an exciting day at the Guthrie fair.

During the performance of the Wild West show, when they captured the horse thief and hung him, frequent shots were fired at him, and through mistake one or two shells loaded with shot were fired. One shot went through his car and several lodged in his neck. The injury was slight. The Western woman who was being captured by the Indians was slightly injured. When they attempted to take her from her horse, going at full speed, her foot hung in the stirrup and the man who grabbed her from her horse had to drop her, after pulling off her shoe heel trying to get her loose. When she fell the spring stirrup opened and released her. She was only bruised.

LIKE A SNAKE.

Madisonville Girl Crawls and Thrusts Out Her Tongue.

Was Bitten By a Viper and Has Since Had Horrible Convulsions.

Madisonville, Ky., July 19.—Miss Stella Castile, a pretty girl of 18, bitten by a snake a few days ago, now acts like a reptile. Her case is most pathetic one.

Miss Castile was out walking last Friday and stepped on a spreading viper, one of the most poisonous of reptiles. The snake bit her on the ankle. The girl returned home and told her parents about the accident, but as the wound gave her no pain, the family delayed calling in a physician until Saturday, when the girl showed violent symptoms.

Sunday afternoon Miss Castile escaped from her room and jumped into a pond near the house. She was rescued as she was sinking for the last time, and removed to the house, where she has been constantly guarded ever since.

Miss Castile has now taken on the ways of a snake. She tries to crawl and at times sticks her tongue from her mouth like a reptile. She is seized with convulsions two or three times a day when she is delirious and attempts to crawl out of bed. At times she is rational and chats with the members of the family and friends who call to see her.

The attending physicians say the case of the young girl is probably hopeless and that she will probably die in one of her convulsions. Miss Castile is one of the most popular girls in Madisonville and attends the high school here.
